# Salud en el Tiempo

## **PREFACIO**

La Dirección Nacional de Registros Médicos y Estadísticas de Salud del Ministerio de Salud Pública de Cuba ofrece la publicación número: 2

### **SALUD EN EL TIEMPO**

Su propósito es el de proporcionar información necesaria tanto para los organismos gubernamentales y sectoriales como para comunicadores, docentes, investigadores, estudiantes y en general para todos aquellos interesados en el tema. También se espera sea de utilidad para los organismos y demás usuarios del ámbito internacional.

Se presentan series de tiempo de indicadores básicos de salud agrupados en 5 secciones:

**Salud Materno Infantil, Mortalidad por Enfermedades Crónicas no Trasmisibles, Mortalidad por Enfermedades Trasmisibles, Morbilidad, Recursos y Servicios.**

El análisis de la información que se presenta contribuirá al acercamiento a la realidad actual, a su comprensión, explicación, identificación de problemas y posibilidades de información disponible, así como a la evaluación de las acciones.

Es nuestro deseo que esta publicación cumpla su propósito e invitamos a los usuarios a formular sus opiniones y sugerencias.
