

Sistema nervioso

A microscopic image of a brain section stained with cresyl-violet luxol fast blue. The image shows a clear boundary between the white matter (Sustancia Blanca) on the left and the gray matter (Sustancia Gris) on the right. The white matter contains myelinated axons, while the gray matter is densely packed with neurons. Two blue labels with yellow text are overlaid on the image: 'SUSTANCIA BLANCA' on the left and 'SUSTANCIA GRIS' on the right.

SUSTANCIA GRIS

SUSTANCIA BLANCA

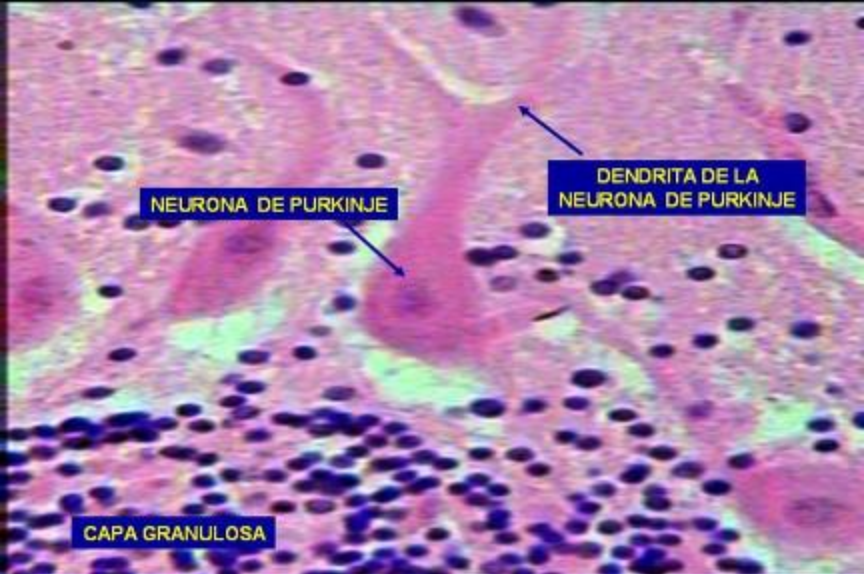

**Cerebro. Coloración
Cresil- violeta luxol fst blue. 40X.**
