

III Congreso Panamericano de Salud Mental Infanto Juvenil  
Reunión de la Sección de Clasificación de la Asociación Mundial de Psiquiatría

24 al 28 de marzo, 2008  
Palacio de Convenciones. La Habana, Cuba

*"Los niños nacen para ser felices"  
José Martí*

III Pan-American Congress of Child and Adolescent Mental Health  
Meeting of the Classification Section of the World Psychiatry Association

March 24-28, 2006  
International Conference Center: Havana, Cuba

*" Children are born to be happy"  
José Martí*

### **CURSO PRECONGRESO**

#### **Programa de la actividad docente a desarrollar.**

1. Título: Entrenamiento de Desensibilización y Reprocesamiento por Movimientos Oculares, (EMDR) Parte I
2. Tipo de actividad: Curso Postgrado.
3. Sede: Centro Latinoamericano de Medicina de Desastres (CLAMED)
4. Auspician el Curso: Centro Latinoamericano de Medicina de Desastres (CLAMED). Sociedad Cubana de Psicología de la Salud. Sociedad Cubana de Psiquiatría.
5. Dirigido a: personal de atención a la Salud Mental, Psiquiatras, Psicólogos, enfermeras, trabajadores sociales
6. Duración: 16 horas
7. Modalidad: x Presencial
8. Matrícula total: 35 alumnos.
9. Fecha: 24 y 25 de Marzo 2008.

**Fundamentación (Necesidades que satisface).** El entrenamiento provee una base en los fundamentales de EMDR, un método breve y rápido para ameliorización del trauma psicológico. Primera parte del entrenamiento de 3 niveles.

### **Objetivo General.**

1. Conocimiento sobre preparación clínica y la selección de clientes para comenzar el procesamiento del trauma.
2. Entender el método del EMDR y su aplicación en el campo de psicoterapia.
3. Síntesis de la teoría del procesamiento acelerado de información y aplicación de EMDR.
4. Conocimiento de investigaciones de EMDR sobre eficacia y teoría.
5. Practica de las habilidades básicas relacionadas con el tema de EMDR.

Objetivos específicos: Después del entrenamiento del Parte 1, los participantes tendrán entendimiento suficiente para aplicar el método EMDR y comenzar en utilizar EMDR con clientes con problemas básicos del trauma y el síndrome postraumático.

### **Temas.**

- Entendimiento básico de EMDR, investigaciones científicas y aplicaciones clínicas.
- Modelo del procesamiento adaptativo de información. Entendimiento de los ocho fases del método.
- Como seleccionar clientes y modos de preparación de clientes frágiles para comenzar el reprocesamiento. Consultación y práctica del método bajo supervisión de facilitadores con mucha experiencia en EMDR.

### **Contenidos:**

1. Entendimiento de EMDR
2. Modelo de Procesamiento de Información Acelerada
3. Historia y Preparación de clientes
4. Primera Sesión de Practica: Historia y Preparación
5. Discusión de Protocolos y Procedimientos
6. Segunda Sesión de Practica: Reprocesamiento del Evento Clave
7. Situaciones Especiales y Diferentes Tipos de Clientes –utilizando los Tres Ramos.
8. Tercera Sesión de Practica: Reevaluación y reprocesamiento- Plan de Tratamiento

*Nota:* Cada participante recibirá información basado en charlas, demostraciones, práctica, y Consultas/asesorías en grupos pequeños.

**Métodos pedagógicos a utilizar:** Se utilizarán métodos explicativos, ilustrativos y expositivos. Practica del método y demostraciones del método.

**Medios de enseñanza:** Se utilizará básicamente la proyección de imágenes mediante video beam o tarjeta de video y retro- proyector. Demostraciones.
